

ineēniā

Air Handling Units

- Indoor & Outdoor Thermal Break Units
- Indirect & Direct Evaporative Cooling Units
- Optiline Fan Arrays, Dampers, Louvres, Controls
- Customized Energy Recovery
- Direct & Indirect Fired Make Up Air Units
- Custom DX Packaged Units
- Desiccant Dehumidification
- Pool Dehumidification
- DOAS Air Handling Units
- Packaged RTUs w/ Energy Recovery

Terminal Equipment

- Vertical Stacked & Horizontal Hybrid Heat Pumps
- Modular Water to Water Heat Pump Chillers
- Heat Pumps with Single Stage, Multi-Stage, and Variable Speed Compressors
- Horizontal & Vertical Stacked Direct Drive & Belt Drive Fan Coil Units
- Vertical Fan Coil Units w/ Integral Energy Recovery Ventilators
- Standard & Critical Environment Terminal Units
- Fan Powered and Induction Units
- Loose Water, DX, Steam, Specialty Coils
- Mini split systems: AC and Heat Pump
- 24V High Efficient, Low Ceiling Height, Fan Coil Unit

Radiant Heating Equipment

- Cabinet Unit Heaters & Hot Water/Steam Convectors
- Horizontal & Vertical Unit Heaters
- Architectural Panel Radiators
- Custom, Commercial, Security, & Residential Finned Tube Radiation
- Radiant Heating & Cooling Panels
- High Efficient Trench/Perimeter Heating

Boilers and Water Heaters

- Stainless Steel Condensing Boilers w/ Capacities From 400 MBH to 16,000 MBH
- Natural Gas, Propane, Oil, & Dual Fuel Burners
- Commercial Indirect Hot Water Heaters
- Copper HX Condensing and Near Condensing Boilers
- Semi-Instantaneous Commercial and Industrial Water Heaters

Cooling Towers and Evaporative Cooling

- FRP, galvanized, and stainless-steel cooling towers
- Corrosion resistant and extra long life cooling towers (30+ years)
- Leak and UV proof construction units
- Induced Draft, Counterflow units from 25-1471 tons (per unit)
- Closed Circuit Fluid Cooler units from 65-2640 tons (per unit)
- Low sound and super low sound fan options
- Reduced height and foot print options
- Direct drive and Gear Drive options
- Centrifugal separators / sweeper piping
- Multiple standard colours

HVAC Pumps

- End Suction, Inline Pumps (w/ and w/o VFD)
- Split Case Pumps
- Packaged Booster Systems
- Vertical Multi-Stage Pumps
- Circulators

Hydronic Accessories

- Y-Strainers, Flexible Connectors, and Circuit Balancing Valves
- Suction Diffusers and Combination Valves
- Air Separators and Expansion Tanks
- Shell & Tube, Brazed Plate, and Plate & Frame Heat Exchangers
- Watt Hydronic Accessories

Vertical Turbine Pumps

- Shallow Wet Multi-Stage Direct Coupled
- Booster Multi-Stage Direct Coupled
- Deep Set Multi-Stage Direct Coupled
- Submersible Multi-Stage
- Low Lift Axial and Mix Flow Multi-Stage

Fire Protection

- Compact Fire Pump Systems
- Horizontal and Vertical Split Case Electric Drive Fire Pumps
- Horizontal Split Case Diesel Drive Fire Pumps
- End Suction and Vertical Inline Fire Pumps
- Vertical Turbine Fire Pumps
- Custom Fire Pump Packages and Solutions
- Maritime and Industrial Fire Pump Systems

Sump and Plumbing Pumps

- Submersible Solids Handling Pumps
- Grinder Pumps and Packages
- Submersible Sewage Ejector Pumps
- Self-Priming Pumps
- Pre-Manufactured Pump Vault Systems
- Control Systems and Accessories

Agricultural and Irrigation Pumps

- Automatic Water Pressure Systems
- Submersible Electric Motors
- Line Shaft Turbine Pumps
- Helical Rotor Pumps
- Windmill Operated Pumps
- Wellmaster Flexible Riser Main Systems
- Galvanized Water Tank Stands and Liner Tanks
